## Instruction to the Candidate

1. Occupy your seat only
2. Write your Entrance Roll Number clearly, both on the Entrance Test question Booklet and on the Entrance Test Answer Sheet.
3. Once the examination has started, no candidate will be allowed to leave the examination hall.
4. You are provided with a separate Answer Sheet in which you are required to darken (with the help of a HB pencil) the appropriate answer lettered choice box against the question number.

For example, if proper answer to question number 5 is choice $b$, then in the answer sheet provided, darken the lettered choice box $B$ Against number 5 in the answer sheet.

5. For correction of a wrong answer choice, cross-mark the already darken wrong answer lettered choice box, and then re-darken the appropriate answer lettered choice box against the question number.

For example, later on, you found that the proper answer to question number 5 is choice $d$, not $b$, then in the answer sheet provided, cross-mark the previously darkened lettered choice box B and then darken the lettered choice box D against number 5 in the answer sheet

6. Use the blank pages given at the back for rough work. Do not use any paper other than the provided sheet
7. Subject and marks allocation:

| SN | Subject | Marks |
| :--- | :--- | :---: |
| 1 | Physics | 50 |
| 2 | Mathematics | 50 |
| 3. | Chemistry | 30 |
| 4. | English | 20 |

8. If there is no answer then darken the E option in the answer sheet.
